

KJ-01: raw image to measured 2D instances

KJ-01 z035: Saturn v5.7.1 production stages

Raw image

Foreground probability

Core probability

Filled foreground mask

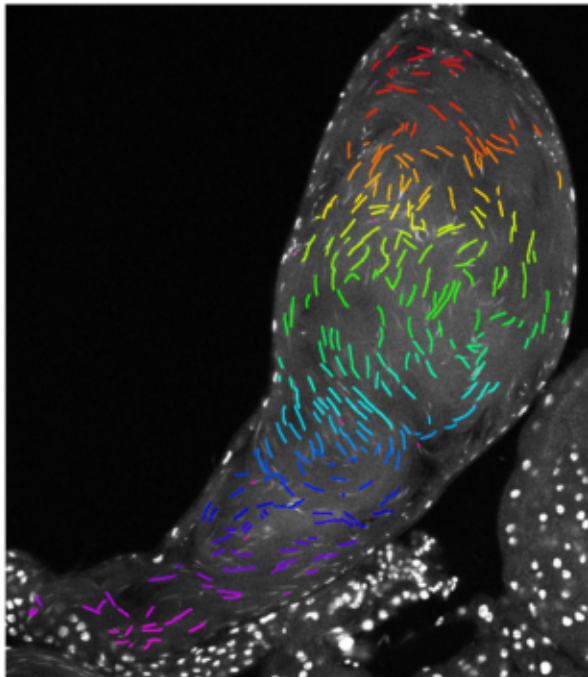

Instance boundaries

Measured centerlines

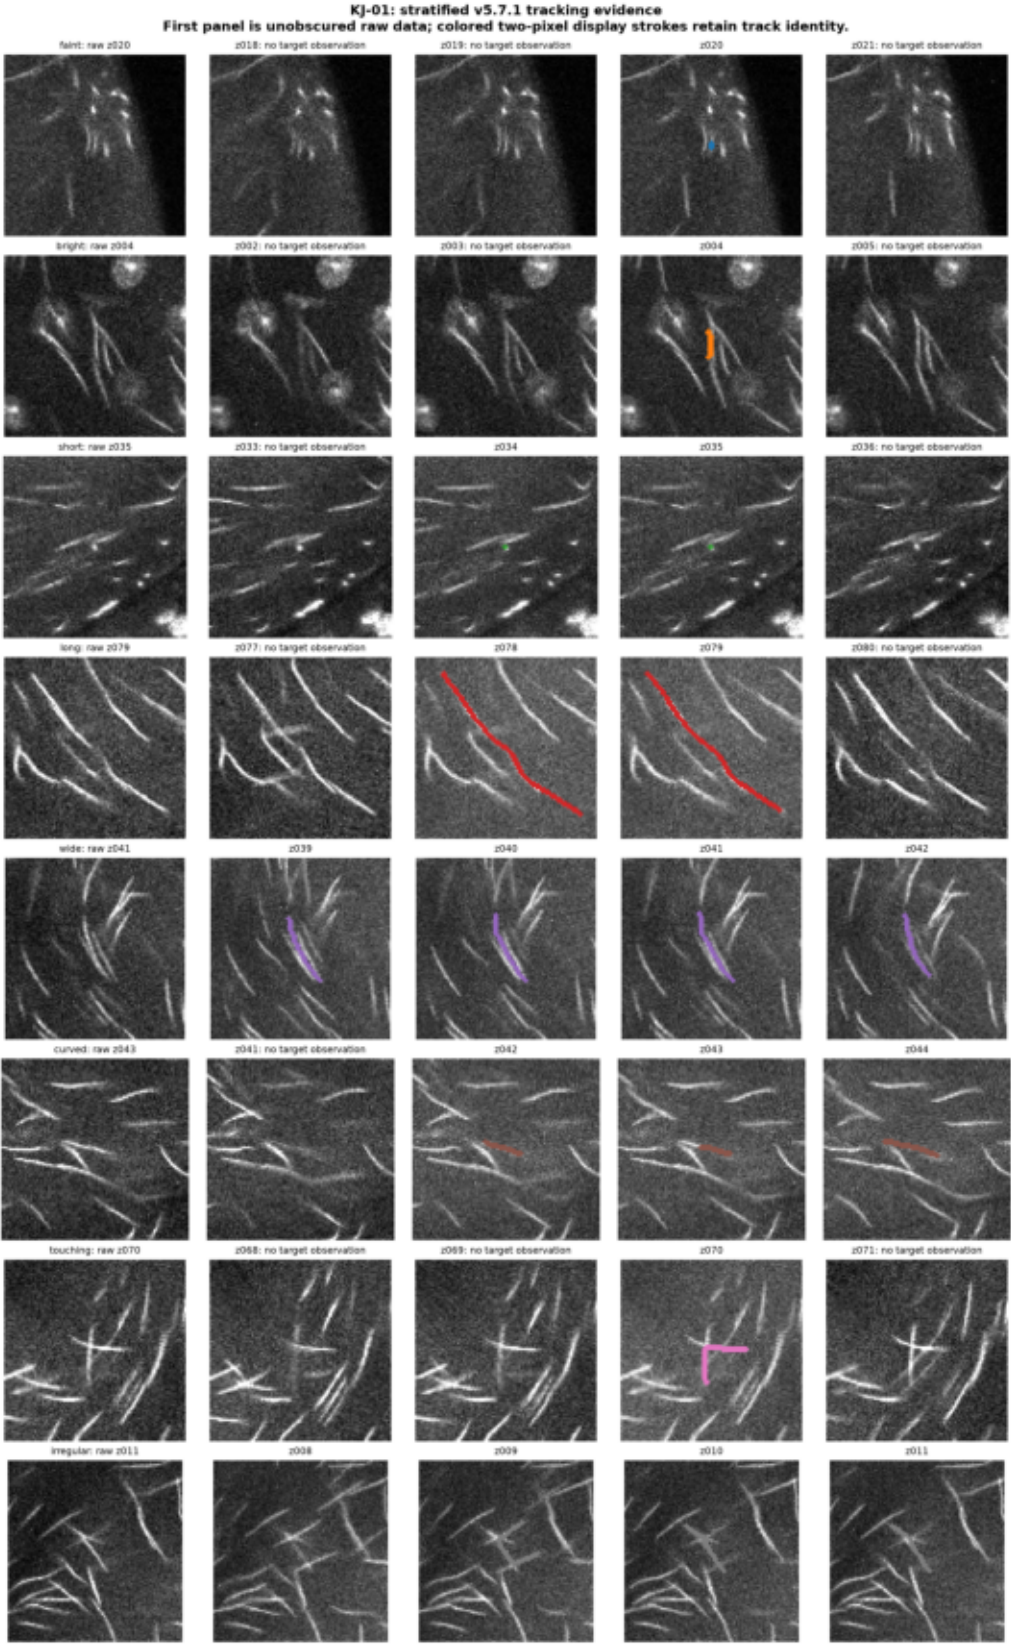

Final production overlay

All panels use the same ROI crop and identical pixel framing.

All stage panels use the same ROI crop and pixel framing.

KJ-01: cross-slice identity evidence

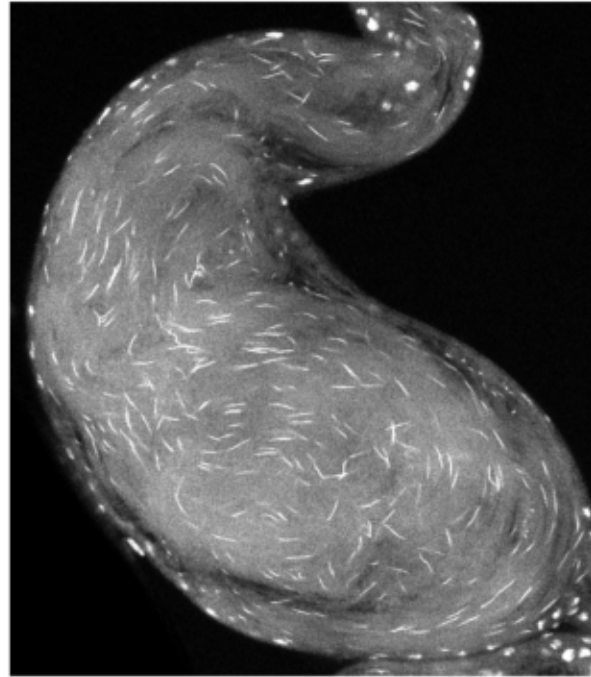

Color is fixed within each track; display strokes do not alter measurements.

WT-01: raw image to measured 2D instances

WT-01 z035: Saturn v5.7.1 production stages

Raw image

Foreground probability

Core probability

Filled foreground mask

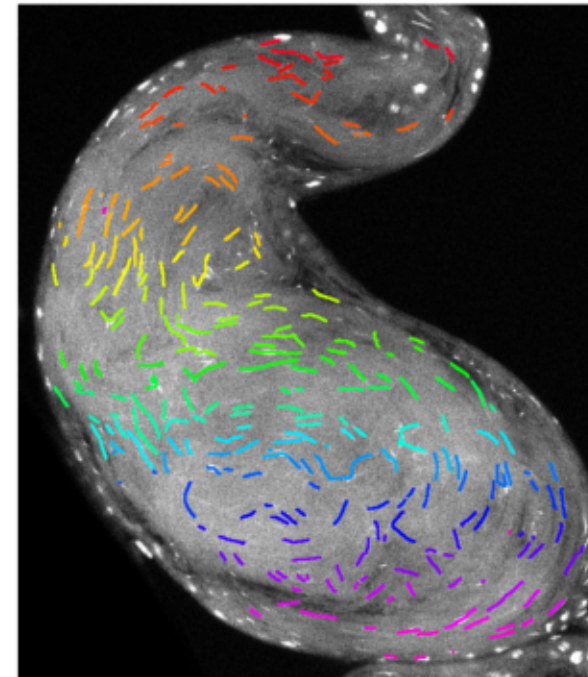

Instance boundaries

Measured centerlines

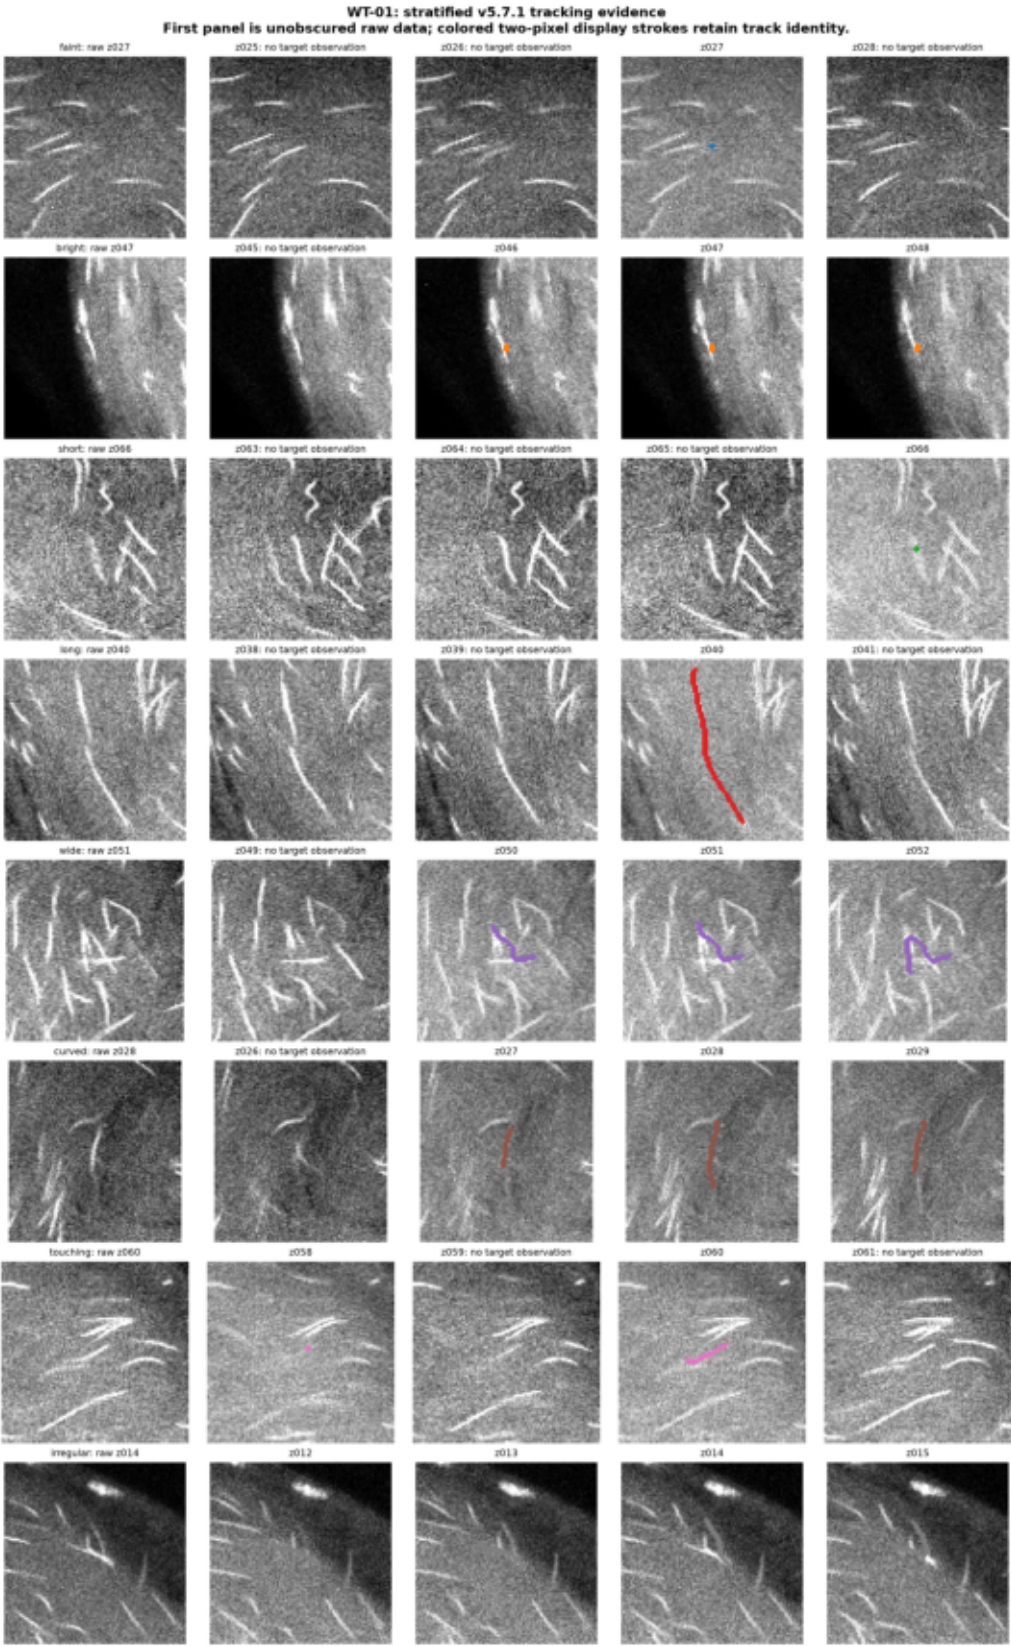

Final production overlay

All panels use the same ROI crop and identical pixel framing.

All stage panels use the same ROI crop and pixel framing.
